

Factory facade / Spree view

SPREE:FABRIK

Fabric

Köpenicker Str. 7A · 10997 Berlin-Kreuzberg

Building section	Factory (existing building, listed as a historical monument)
Total rental area	2.000 m ²
Rental units	5 units
Unit sizes	200 m ² – 800 m ²
Type of use	Office / Studio / Commercial
Availability	2027
Rental price	[Insert €/m²] plus additional costs

The project

The SPREE:FABRIK at Köpenicker Straße 7A is a prime example of the responsible revitalization of Berlin's listed industrial heritage. The complex unites three independent building sections – the front building, the factory, and the terraced building (new construction) – into a coherent urban quarter directly on the Spree River.

The former steam-powered printing factory building forms the heart of the site. The carefully designed addition complements the listed building; lost facade axes are restored in keeping with the historical design. Each unit has its own landscaped terrace with direct views of the Spree River.

Factory facade / courtyard view

Location & surroundings

Köpenicker Straße 7A is located in eastern Kreuzberg, directly on the Spree River, in the immediate vicinity of the Oberbaum Bridge. The location combines the historical industrial heritage of the Spree riverbank with the vibrant urban environment of Kreuzberg.

Address	Köpenickerstraße 7A, 10997 Berlin-Kreuzberg
U-Bahn	[z. B. U1 Schlesisches Tor – ca. X min]
S-Bahn	[e.g. S3/S5/S7/S9 Ostbahnhof – approx. X min]
Bus	[Insert line]
Bicycle	Direct connection to the Spree riverbank cycle path
Car / Parking	[Check parking space availability]
Berlin Brandenburg Airport (BER)	approx. 30 min (A113)

Property description

The factory building is part of a listed historical ensemble and is being carefully renovated and extended. Its industrial qualities – high ceilings, exposed concrete, wooden beam ceilings, and large windows – are being preserved and given a contemporary upgrade.

Year of construction (existing stock)	late 19th century (steam printing press)
Listed building	And –Ensemble protection
Projectiles	EG + 4AND
Ceiling heights	about.[X,X]m (varies per floor)
construction	Solid construction,Steel-reinforced concrete ceilings,
facade	Historic brick facade, restored
The terrace	Green outdoor terraces per unit
Elevator	And
Accessibility	And
Heating	District heating
cooling	
Internet / Fiber Optics	And
Sanitary	Communal sanitary facilities on each floor
Parking spaces	No
bicycle parking spaces	in the yard
completion	2027

Site plan

The factory is located at the rear of the industrial park, directly on the Spree River. The upper floors feature spacious roof terraces with direct views of the water. Two boat moorings are available right on the riverbank. The park is accessible for delivery vehicles – direct access to the entrance is possible. Ample bicycle parking is available in the park.

Floor plans & rental spaces

The factory comprises five rental units spread over four floors. All units are individually configurable; combinations of adjacent units are possible. Each unit has direct terrace access to the Spree River.

Ground floor (EG)

Unit	Usable area	Terrace area	Total rental area	jobs	use	Status
F.0.1	764 m²	73 m²	800 m²	46	Office	Author from 2027 onwards

1st floor (1st floor)

Rental conditions

Rental price	[€/m ² /month] plus operating costs
Operating costs	approx. [€/m ² /month] (advance payment)
Rental space	after gif 2017
Minimum rental period	[X years]
Start of tenancy	by appointment
Rent-free period	by agreement (expansion phase)
Deposit	[X monthly rents]
Expansion standard	Completely renovated, tenant fit-out by arrangement
Parking spaces	[Insert price per month]
Provision	[commission-free / insert X % if applicable]

Combinations of multiple units are possible upon agreement. Individual fit-out options can be agreed upon within the framework of the lease. For specific offers, please contact us directly.

Sustainability & Technology

The factory is being renovated and expanded according to the principle of resource-efficient construction. Historical building fabric is preserved to the greatest extent possible; new interventions are reversible and clearly legible.

Energy standard	KfW 70
Heating	District heating
Photovoltaics	And
Greenery	Intensive roof and terrace greening
rainwater	Infiltration on the property
Certification	[DGNB / BREEAM – falls geplant]
Cycling infrastructure	Parking spaces in the yard

History of the place

The site at Köpenickerstraße 7A has a history spanning over 150 years as a production and commercial location on the banks of the Spree River in Berlin. In the late 19th century, the Dannenberger steam printing works and calico printing works formed a significant industrial complex in Berlin's textile and media history.

The immediate waterfront location enabled efficient transport of raw materials by ship and the use of water in the production process. This close connection between the building, production, and the river is still evident today – and is being consciously continued through the revitalization.

Despite war damage and changing uses during the GDR era, the historical structure has been largely preserved. The listed buildings now serve as a repository of collective memory and form the basis for a contemporary, urban business district.

Terraced Building / Courtyard Elevation

SPREE:FABRIK

Terraced Building

Köpenicker Straße 7A · 10997 Berlin-Kreuzberg

Building section	Terraced house (new construction)
Total rental area	about 2.060 m ²
Rental units	14 units
Unit sizes	50 m ² – 400 m ²
Type of use	Office / Studio / Commercial / Restaurant Ground Floor
Availability	2028
Rental price	[Insert €/m ²] plus additional costs

Terraced Building / Terrace

The project

The terraced building is the newly constructed part of the SPREE:FABRIK ensemble at Köpenickerstraße 7A. As a five-story new building, it blends carefully into the listed surroundings and, together with the factory and the front building, forms a coherent urban quarter directly on the Spree river.

The building is characterized by its surrounding, green terraces on each floor, which seamlessly integrate the outdoors into the work environment. On the ground floor, a restaurant provides public access; the communal roof terrace on the top floor offers an open, collective space with expansive views of the Spree River and the city.

The 14 rental units vary in size and layout, allowing for a wide range of uses – from small offices and studios to spacious commercial and creative spaces. Units can be combined upon request.

Terraced house / Street view

Location & surroundings

Köpenickerstraße 7A is located in eastern Kreuzberg, directly on the Spree River. The location combines historical industrial heritage with the urban environment of Kreuzberg – creative studios, restaurants, and cultural venues are in the immediate vicinity.

Address	Köpenickerstraße 7A, 10997 Berlin-Kreuzberg
U-Bahn	[z. B. U1 Schlesisches Tor – ca. X min]
S-Bahn	[e.g. S3/S5/S7/S9 Ostbahnhof – approx. X min]

T.0.3.1	50 m ²	0 m ²	50 m²	Studio / Commercial	Author from 2028 onwards
T.0.4.1	65 m ²	0 m ²	65 m²	Studio / Commercial	Author from 2028 onwards
T.0.5.1	70 m ²	0 m ²	70 m²	Studio / Commercial	Author from 2028 onwards

1st floor (1st floor)

First floor with green terraces facing the Spree riverfront and the inner courtyard.

Unit	Usable area	Terrace area	Total rental area	use	Status
T.1.1.1	203 m²	13 m²	210 m²	Office	Author from 2028 onwards

T.1.2.1	201 m ²	0 m ²	201 m ²	Office	Author from 2028 onwards
---------	--------------------	------------------	--------------------	--------	--------------------------

2nd floor (2nd floor)

Second floor with surrounding terrace bands.

Unit	Inner surface	Terrace area	Total rental area	use	Status
T.2.1.1	170 m ²	44 m ²	192 m ²	Office	Author from 2028 onwards

T.2.2.1	176 m²	26 m²	190 m²	Office	Author from 2028 onwards
---------	--------	-------	--------	--------	-----------------------------

Additionally: Communal roof terrace 96.60 m² – accessible to all tenants.

3rd floor (3rd floor)

Third floor with spacious terraces facing the Spree River.

Unit	Inner surface	Terrace area	Total rental area	use	Status
T3.1.1	127 m²	65 m²	160 m²	Office	Author from 2028 onwards
T3.2.1	152 m²	42 m²	173 m²	Office	Author from 2028 onwards

Additionally: Communal roof terrace 96.60 m² – accessible to all tenants.

4th floor (4th floor)

Unit	Usable area	Terrace area	Total rental area	use	Status
T.4.1.1	113 m²	40 m²	133 m²	Office	Author from 2028 onwards
T.4.2.1	129 m²	40 m²	149 m²	Office	Author from 2028 onwards

Additionally: Communal roof terrace 96.60 m² – accessible to all tenants.

5th floor / attic (5th floor)

Top floor with direct access to the communal roof terrace. Panoramic views of the Spree river and city skyline.

Unit	Usable area	Terrace area	Total rental area	use	Status
T.5.1.1	238 m²	51 m²	263 m²	Office	Author from 2028 onwards

Additionally: Communal roof terrace 96.60 m² – accessible to all tenants.

Rental conditions

Rental price for interior space	[€/m ² /month] plus operating costs
Rental price for terrace area	[€/m ² /month – Calculation according to gif 2017]
Operating costs	approx. [€/m ² /month] (advance payment)
Area calculation	after gif 2017
Minimum rental period	[X years]
Start of tenancy	by appointment
Rent-free period	by agreement (expansion phase)
Deposit	[X monthly rents]
Expansion standard	Shell construction complete / Tenant fit-out by arrangement
Parking spaces	[Insert price per month]
Provision	[commission-free / insert X % if applicable]

Units can be combined upon request. Individual fit-out options and rent-free expansion phases are negotiable within the framework of the lease agreement. Please contact us directly for specific offers.

Sustainability & Technology

As a new building within a listed historical ensemble, the terraced house combines contemporary energy standards with a sensitive approach to the historical context. Extensive greening on all terrace levels and the roof improves the microclimate and promotes biodiversity in the urban area.

Energy standard	KfW 55
Heating	District heating
Photovoltaics	And
Terrace greenery	Indensely planted with greenery, all floors
Green roof	Inintensively planted with vegetation
Rainwater	Infiltration on the property
Certification	[DGNB / BREEAM – falls geplant]
Cycling infrastructure	Parking spaces in the courtyard

History of the place

The site at Köpenickerstraße 7A has a history spanning over 150 years as a production and commercial location on the banks of the Spree River in Berlin. In the late 19th century, the Dannenberger steam printing works and calico printing works formed a significant industrial complex in Berlin's textile and media history.

The immediate waterfront location enabled efficient transport of raw materials by ship and the use of water in the production process. This close connection between the building, production, and the river is still evident today – and is being consciously continued through the revitalization.

Despite war damage and changing uses during the GDR era, the historical structure has been largely preserved. The new terraced building, as a contemporary addition, references this history and completes the ensemble with its own distinctive, modern character.
